How New Health Care Regulations Will Affect You

The **2010 Healthcare Summit** has been created to help you understand what the new law means for your organization and employees. While some of the changes won't go into effect for several years, there are numerous provisions to address and comply with before the end of 2010. Examples of such issues include prohibiting lifetime limits, restricting annual limits and providing health coverage for adult children until the child reaches age 26. This seminar will give you an idea of what to expect and what the unexpected can cost your organization. This seminar is fantastic for anyone in charge of capital assets or human capital management.
